With MICRO-PACKAGE (optional)

Micronutrients added per application (specify)

- Boron
- Crop Mix
- Western Magnesium Mix
- HA-1 (Borregro Acid Soluble Humate)
- CA-800 (Borrechel Calcium Lignosulfonate)

ADVANTAGES:

5-34-0+4s is an acid-based liquid fertilizer.

An ideal source of phosphate and nitrogen in 100% water soluble liquid form.

Contains a low pH (pH< 1) to help prevent binding of phosphates and assist with uptake of nutrients in western soils.

USES:

Direct application for pre-plant crops requiring an early boost of phosphate.

Injection or banding directly into the soil.

Irrigations injections systems.

Frequently used as a starter fertilizer (N: P2O5 ratio ideal for variety of crops).

Use only with pumps/systems approved for acid fertilizers.

**Pounds of Nutrients
Per 1 gallon**

❖ N- 0.65lbs

❖ P- 4.40lbs

❖ K- 0.00lbs

❖ S- 0.52lbs

***For specific application rates please contact a western blend representative, a certified crop advisor, agronomist, university crop extension publication, or apply according to recommendations in your approved nutrient management plan.**
